# Soft Slicing Machine

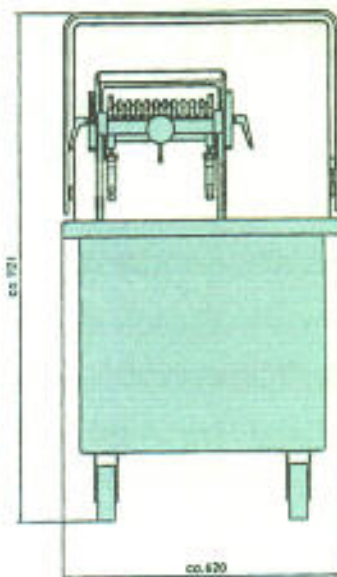

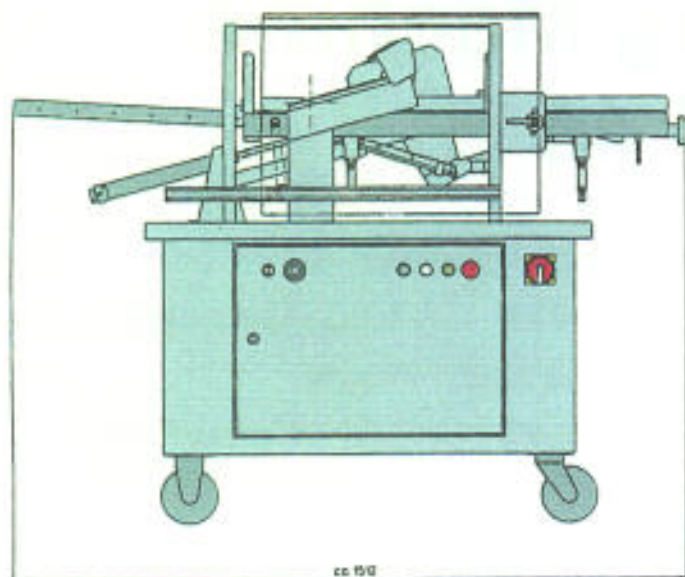

## WSM 45 E

- closed stainless steel understructure
- slicing system with oscillating knives
- adjustable cutting angle
- single lane machine for soft unfrozen products
- easy cleaning
- robust, technical advanced design
- clean cut through
- neatly reconstituted sliced fillets are placed onto packing trays

# Soft Slicing Machine

## WSM 45 E

### Technical Data

Slicing angle:	12° - 18°
Slice thickness:	2 - 4.5 mm
Capacity:	up to 40 strokes/min
Slicing width:	max. 210 mm
Compressed air supply:	300 l./min output at 6.5 to 8 bar
Weight:	clean and dry air

### Electrical Data

Power supply:	220 V, 16 A, CEE-plug
Load:	1.0 kW
Frequency:	50/60 Hz
